

Name _____

Date _____

Artist

The artist creates works of art. They can be images or sculptures. For their images, they use materials such as watercolors, pencils, paint, or computers. For their sculptures, they use plaster, wood, or metal.

Some work in a traditional way. For example, cartoonists draw on paper. Others work with the help of the computer.

Artists can work in art studios, advertising agencies, or design companies.

Some artists show and sell their works of art in museums and galleries. Others create images for advertisements or product packaging.
