

When Reading

Mmm...?

1. Underline the title and subtitles, and make a prediction.
2. If they are part of the text, analyze the graphs, illustrations, tables, and drawings.
3. Think about what you already know about this topic.
4. Read and analyze the text once or twice and make mental or paper notes of what you understand.
5. Find and write down the main idea of each paragraph.
6. Analyze and cross out the questions that don't make sense.
7. Find and mark the place where you find the answer to each question.
