

Name: _____

Fantastic Places of the World

Sundays in Madrid

My name is Jaime and I am 11 years old. The city where I live is called Madrid, and it is a beautiful city. They have great avenues, streets full of shops, and many monuments. The city center is full of museums and palaces. On Sunday mornings, they set up a little market in the Plaza de Cascorro where they sell fruit and vegetables, clothes, antiques, and other things. I really like shopping there with my parents and my uncles. When we finish shopping, we go to eat a delicious paella at a friend's restaurant. I always sit next to Mateo, my cousin, who is 10 years old. If the weather is nice, they let us go out to the back yard to play soccer. I like to be the goalkeeper and stop all goals. When I am older, I want to be a professional soccer player and be on major soccer team.

ANSWER THE QUESTIONS

1. Where does Mateo live?
