

Name _____

Date _____

Waiter/Waitress

Waiters and waitresses work in restaurants, cafes, and hotels. They prepare the tables before the customers arrive, take orders from the customers, serve the food and drinks ordered, and clean the tables after the customer leaves.

They are also in charge of taking the bill to the customers and collecting the money. Usually, customers will tip the waiters and waitresses for providing good service.

A waiter should be friendly, know the menu to recommend dishes to customers and be clean and tidy.

Waiters usually wear a uniform that identifies them.
