

## SEQUENCING EXERCISES-ADVANCED LEVEL

Place the sentences in a logical and coherent order. Cut and paste or write in the boxes below.

### Landing on the Moon

This mission was not easy for Armstrong, who was the first human being to step on the surface of the terrestrial satellite.

On July 24 the ship returned to Earth with its crew safe and sound.

Despite the difficulties encountered, Armstrong stepped on the lunar surface July 21.

Apollo 11 was a space mission scheduled for man to reach the moon.

The mission began on July 16, 1969, reaching the moon 4 days later of the same year.
