## Juana's Little Parrot

My friend, Juana, has a little parrot named Tita.

Tita is green in color and has a yellow stain on her head.

Tita is very happy when I visit Juana.

When Tita sees me, she always raises and lowers her head and raises her little leg.

I always bring her seeds. What I like most about Tita is that she knows how to say my name.

My friend's parrot knows how to speak!

1. What kind of bird does Juana have?

2. What's the name of Juana's bird?

3. What does Tita do when she sees Juana's friend?

4. Why do you think Tita is happy when her friend

5. What is Tita like?
