## Which Spanish artist created Cubism?

Pablo Picasso was one of the greatest artists of the twentieth century. He was one of the creators of Cubism, a style of art which incorporates geometric shapes and interlocking planes.

Pablo Picasso was born in Andalusia, Spain. He had two sisters. He was a very good student. When he was only fourteen, he entered the University of Barcelona. He studied art and painted thousands of paintings. Besides a painter, Pablo was also a sculptor, an illustrator, and a designer.

In total, Picasso created over 20,000 pieces of art. One of his most famous paintings is *Guernica*. It represents a bombing.

Pablo Picasso died on April 8, 1973, in France.
